URUGUAY

ONU 
programa para el
medio ambiente

- 
- The impact of the COVID-19 pandemic will dominate the global agenda for the near future.
 - Some of the most important actions we can take are to tackle the illegal trade on chemicals and hazardous waste; taking into account international trade.
 - Demand for recyclable materials. Are new products generate more reliable than reusable products?
 - Impact of the virus on advances in the circular economy.
 - Proper ESM of medical and hazardous waste as part of an effective emergency response.
